

Larissa Boase, MA, CRC

Disability Management & Ergonomics Specialist

Fields of Competence

Vocational Rehab/Job Coach/Ergonomic Consultant

Provide individual job coaching services to individuals experiencing disability-related issues at work. Experience working with various populations: Traumatic Brain Injury, Orthopedic Injuries, Occupational Injuries, Mental Illness, Developmentally Disabled, Hearing Impaired, Physically Disabled, and Substance Abuse. Experience in assessing vocational abilities by completing transferable skills analyses and vocational testing. Provide career guidance and counseling to assist with obtaining appropriate vocational decisions and timely return to work. Complete job analyses to communicate job responsibilities and physical demands.

Experience Summary

Ms. Boase is a bilingual (Spanish/English) Certified Rehabilitation Counselor and has approximately 10 years of experience. Her experience includes providing vocational case management, job development and placement, job analyses, and job coaching to individuals with disabilities. Her caseload includes persons receiving services from Michigan Rehabilitation Services, Michigan auto-no fault, and worker's compensation claims. After approximately 8 years of experience providing vocational rehabilitation counseling services to individuals with disabilities, she began her own private practice allowing her to provide multiple services to individuals and organizations state-wide.

In addition to providing vocational counseling services, she provides vocational expert testimony for the Social Security Administration. Her professional experience also includes working with accounts such as AAA of Michigan, TJ Maxx, Michigan Rehabilitation Services, and various restaurants and retail locations in southeast Michigan.
